Subject: Let's get on with it

Microsoft has done an awful lot for this economy. They are being penalized by companies that are jealous of what they have accomplished. It's time for them to throw in the towel and admit that they are envious of Microsoft. SunWest has charged an exorbitant price for what you get and yet they are envious of Microsoft. Netscape, didn't they sell for a big profit?

Microsoft is entitled to make a profit for what they give us as in any business. This thing has gone too far and it's time to call a halt.

I've been more than happy with the quality and price I paid for from Microsoft
